Are there verses or sayings of the Buddha on pandemics or crisis, and what are the causes and solutions from a Buddhist perspective? We will discuss existential crisis in Buddhist terms comparing to secular definitions of “crisis” and its difference from “disaster”. The main focus of our discussion will be on Buddhist means for overcoming existential crises – What helps, specially in the context of the Covid-19 pandemic?

Die Veranstaltung findet im Rahmen des Seminars The Covid-19 Pandemic in Theology and Religions statt.
